18.54	12	5	35.54	73

Honda HR-V scored 15.21 in the Adult Occupant Protection (AOP); however, due to 5-Star pre-requisite, variants without both frontal occupant SBR's are rated 4-Star AOP. This model scored 73% in Child Occupant Protection (COP), which is in the 4-Star range. All variants come standard with ABS and ESC, and also ISOFIX and top tether for child safety seats.

From September 2013, ASEAN NCAP has introduced side impact test (UN R95) as a new pre-requisite for 4-Star and above. Also, Child Occupant Protection (COP) is presented in star-rating form.
