

DAIHATSU XENIA (2022)

Variant 1.3M MT	Year Built 2023
Model Year 2022	Vehicle Category MPV
Engine Capacity 1.3 L	Kerb Mass 1080 kg
No. of Airbags 2	Test Lab PC3 <small>FORWARD SAFETY VEHICLES</small>

TESTED VARIANT ORIGIN	INDONESIA	FOR	INDONESIA
OTHER ASEAN PRODUCTION (ALL VARIANTS)	-	FOR	-

The frontal occupant compartment remained stable in the frontal crash test. Data obtained from the test dummy showed there were marginal protection to the driver's chest. Data also showed both of the occupants' lower legs received adequate protection.

The driver received adequate protection to the chest during the side impact test.

AUTONOMOUS EMERGENCY BRAKING ASSESSMENT
--

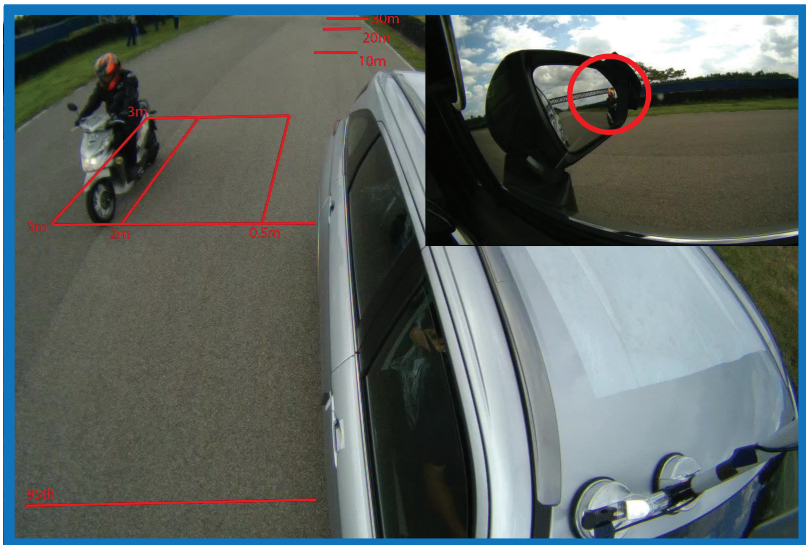

ASEAN NCAP is introducing the Autonomous Emergency Braking (AEB) system functionality assessment in its new 2021-2025 protocol. In the protocol, ASEAN NCAP assessed the functionality and effectiveness of AEB City and AEB Inter-Urban systems fitted inside the vehicle in performing emergency braking at several speeds against another preceding vehicle. Both the AEB City and Inter-Urban systems are available in the Daihatsu Xenia as optional fiment. In this assessment, ASEAN NCAP confirms the technologies have functioned according to ASEAN NCAP requirements.

BLIND SPOT DETECTION ASSESSMENT

Starting from the 2017-2020 protocol, ASEAN NCAP introduced assessment on the functionality of Blind Spot Technology fitted inside the assessed vehicle. ASEAN NCAP continues the assessment under the new Motorcyclist Safety pillar for the new 2021-2025 protocol. The Daihatsu Xenia is equipped with Blind Spot Detection (BSD) on the driver and passenger sides of the MPV as optional fitment. In this assessment, ASEAN NCAP confirms the technology has functioned according to ASEAN NCAP requirements on both the left and right sides area of the vehicle.

OVERALL RATING

ASEAN NCAP had performed assessments on four of Daihatsu's models under the 2012-2016 protocol. Daihatsu Xenia is the first model under the brand to be tested under the current 2021-2025 assessment protocol. Under this assessment, the 7-seater MPV is equipped with 2 airbags as standard fitment while 6 airbags is offered in its most highest variant. The model also offers Anti-lock Braking System (ABS), Seatbelt Reminder System (SBR) for driver only and Pedestrian Protection technology as standard equipment across all its variants. Advanced safety assist technologies namely Electronic Stability Control (ESC), Autonomous Emergency Braking (AEB) City, AEB Inter-Urban, Blind Spot Detection (BSD), Lane Departure Warning (LDW), Forward Collision Warning (FCW) and Lane Keep Assist (LKA) are available as optional fitment. The Daihatsu Xenia performed well in the assessment in which the MPV obtained an overall score of 64.50 points. Based on the score, the star rating for Xenia has been limited to 3-Star ASEAN NCAP rating. This is because the model achieved the maximum rating of 3 stars for the Motorcyclist Safety (MS) category.
