BLIND SPOT TECHNOLOGY ASSESSMENT

Since 2017, ASEAN NCAP has introduced Blind Spot Technology (BST) in its new protocol. In this protocol, ASEAN NCAP assessed the functionality of each BST introduced in the car. The Toyota C-HR has equipped BST as standard parts in Malaysia, Indonesia and Singapore. However, the part is an option in Thailand while the technology is not available in Brunei. In this assessment, ASEAN NCAP confirms that the technology has functioned according to ASEAN NCAP requirements on both the left and right side area.
