OVERALL RATING

The new Mitsubishi Xpander is the latest Mitsubishi crossover model under its MPV line-up and currently its sixth model that underwent ASEAN NCAP assessment. The Xpander performed adequately well during the test for its Adult Occupant Protection but unfortunately it obtained a slightly lower score for its Child Occupant Protection category. This is because the model was unable to get any points for its Q3 frontal assessment. The MPV is fitted with Electronic Stability Control as standard in Thailand, Vietnam and Malaysia but offered as optional in Indonesia and The Philippines. As part of Mitsubishi's commitment to safety, the model is also equipped with Emergency Stop Signal as one of its Safety Assist Technology features. With an overall score of 70.96 points, the new Mitsubishi Xpander is eligible for 4-Star ASEAN NCAP rating.
